DNI Clapper Statement on the National Security Strategy

The National Security Strategy, written by our country's elected leaders, serves as the foundational document for the [National Intelligence Strategy](#), which provides the intelligence community with our mission priorities.

IC activities must be consistent with, and responsive to, our national security priorities.

We will continue to work with both the Executive Branch and our Congressional Oversight to ensure policymakers are receiving the best intelligence to anticipate future threats, and meet the goals of the National Security Strategy.

James R. Clapper, Director of National Intelligence
